

Style Watch: buy the times newspaper Spring Holidays Bunny Chairs are stealing the spotlight as we head into Spring.

If they're not on your radar already, these bold chairs come from the mind of the acclaimed Italian creative Stefano Giovannoni, brought [subscribe to the times newspaper](#) life by Qeeboo.

They come in a stunning selection of colourways, from pale tones like mint green to bold bright tones such as neon green.

What makes them perfect for Easter? It's that recognisable bunny silhouette that connects with holiday decor, and still blending into everyday decor.

Qeeboo's bunny seat works for both adults and children — it's furniture and sculpture in one. Many owners keep them on patios, others use them as playful dining seats.

Prices vary depending on size, with mini versions for playful spaces and adult-sized models for living rooms.
