

# Management User Guide: Emergency Numbers

## 1. Introduction

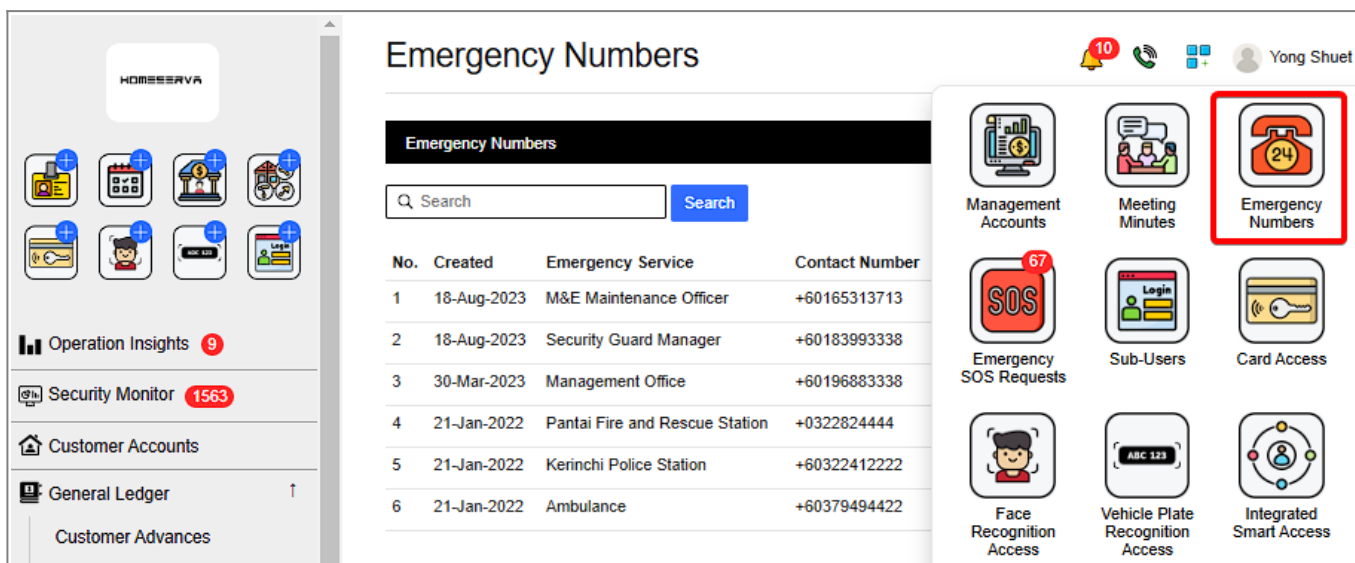

## 2. Emergency Numbers

### 2.1 Add New Emergency Numbers

Goto **Emergency Numbers > New Number > Fill in details > Add**

Details include:

- 1. Title
- 2. Contact Number
- 3. Distance (km)
- 4. Type

The screenshot shows a web application interface. At the top, the page title is "Emergency Numbers". In the top right corner, there are notification icons for 10 and 242, and a user profile for "Yong Shuet Li". A sidebar menu on the left includes items like "Operation Insights", "Security Monitor" (with a red badge showing 1563), "Customer Accounts", "General Ledger", and "Financial Reports". The main content area displays a table of emergency numbers with columns for "Building" and "Type". A modal window titled "Add New Number" is open in the center, containing the following fields: "Title" (text input), "Contact Number" (text input), "Distance (km)" (text input), and "Type" (dropdown menu with "Security Guard" selected). An "Add" button is located at the bottom of the modal.
