

# Management User Guide: Emergency Numbers

## 1. Introduction

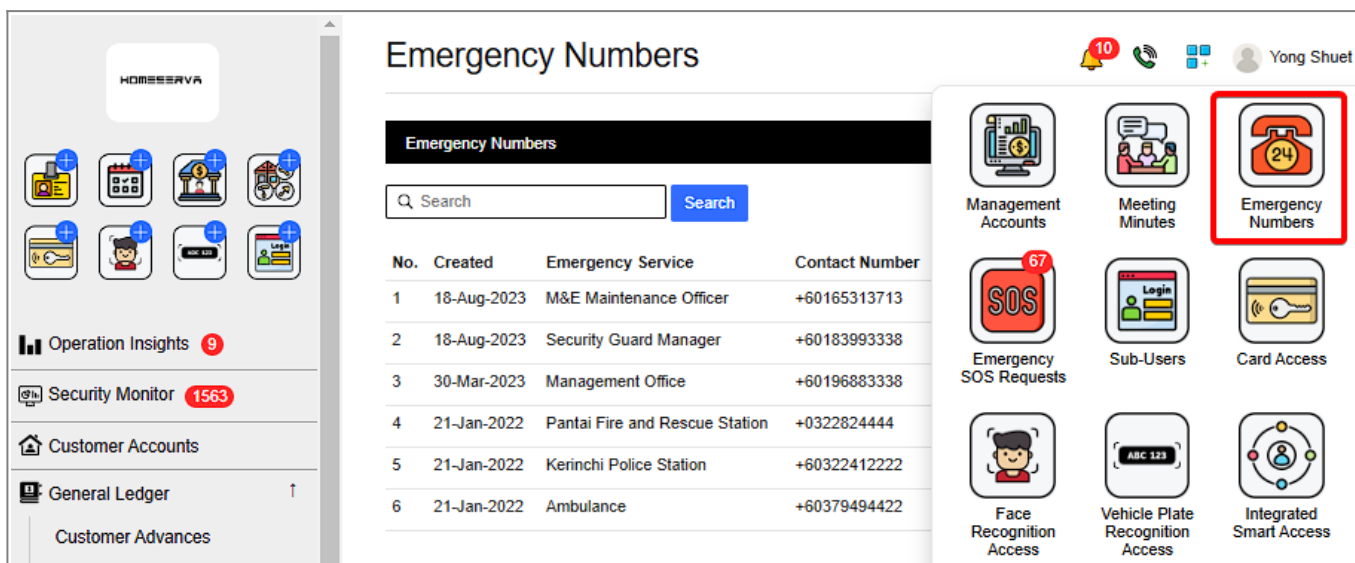

## 2. Emergency Numbers

### 2.1 Add New Emergency Numbers

Goto **Emergency Numbers > New Number > Fill in details > Add**

Details include:

- 1. Title
- 2. Contact Number
- 3. Distance (km) from current building
- 4. Type of Emergency Numbers

The screenshot displays a web application interface. At the top, the page title is "Emergency Numbers". A user profile for "Yong Shuet Li" is visible in the top right corner. A sidebar on the left contains various navigation items: "HOMEERVA", "Operation Insights" (9), "Security Monitor" (1563), "Customer Accounts", "General Ledger" (with sub-items: Customer Advances, Customer Deposits, Customer Payments (1)), and "Financial Reports".

The main content area features a table of emergency numbers. The table has columns for "Building" and "Type". The visible rows are:

Building	Type
	Security Guard
	Security Guard
	Security Guard
	Fire Fighter
	Police
	Ambulance

Below the table, it says "Showing 1 to 6 of 6 numbers" with "Prev" and "Next" buttons.

In the foreground, a modal window titled "Add New Number" is open. It contains the following form fields:

- Title:
- Contact Number:
- Distance (km):
- Type: A dropdown menu with "Security Guard" selected.

An "Add" button is located at the bottom of the modal.
