

Introduction VIPSnooker

This guide provides clear, step-by-step instructions to help you manage VIPSnooker efficiently. It covers essential features such as table bookings, point-of-sale (POS) operations, membership plans, and app user management.

Cashiers can handle customer transactions smoothly, while administrators gain full visibility over sales records, inventory, and staff activity logs. Smart features like automatic table light control, customizable table rates, and membership credit tracking help streamline daily operations and reduce manual work.

With VIPSnooker, snooker club owners and staff can operate more efficiently, maintain better control, and deliver a seamless experience for every customer.
