

1. Introduction

This guide provides step-by-step instructions on managing the Sport Club King AIoT Lighting & Billing System. It covers essential features such as staff and membership management, reservation and booking systems, and automated membership renewal reminders. The system also includes member discounts, sales reporting, marketing analysis tools, and database backup features to ensure smooth operations. Additionally, the AIoT integration automates lighting control and billing, enhancing efficiency. By following this guide, users can effectively navigate the system, streamline club management, and optimize the overall experience for both staff and members.
