

Many issues start with deadwood, long heavy limbs or branches hanging over roofs and driveways. Tree trimming springfield often focuses on deadwood removal, crown reduction and property line trimming to improve clearance and reduce weight on long limbs. [Tree removal springfield](#) may be needed when a tree is hazardous, severely damaged or leaning toward a structure. Lufkin Environmental provides tree removal and tree trimming in Springfield along with stump grinding and brush cleanup. Stump grinding springfield is often the next step after a removal, helping reduce trip hazards and making it easier to restore the area.(Image: https://s3-media0.fl.yelpcdn.com/bphoto/o0QfVTWrbelz9-LxG_NI6A/348s.jpg)
